Hasbro has sent over additional information about the upcoming Transformers Prime First Edition and Dark Energon figures. Perhaps the most interesting bit of this news is that the First Edition toys will be shared exclusive rather than a strict Toys R Us exclusive as it was stated during San Diego Comic-Con. Joining TRU in offering the figures are Big Bad Toy Store and Entertainment Earth!

Big Bad Toy Store will also be offering the Dark Energon figures - repaints of Transformers Prime Deluxe and Voyager molds. Pre-orders will go live September 1st (That's this Saturday!)
