

## Another New Movie TV Spot

Contributed by Newsy  
Friday, 15 June 2007

Via the 2005Boards comes yet another new astf TV spot. In this bit of footage, in addition to getting to see Blackout transform again and see Bonecrusher transform (and chew up pavement) on the highway, we also learn that overpasses are vulnerable to extensive damage from Transformers, that Megatron is still quite pointy... and that, in the words of Anthony Anderson's character, killer robots are really distracting.

Get distracted here at YouTube, and then register your comments here in lonegamer8's thread.
