

Transformers.com: Seasonal Specialties

Contributed by ChessPieceFace
Monday, 01 October 2007

Transformers.com has posted official images of the line of astf holiday items from Seasonal Specialties. As we saw from some store reports a week ago, these include a variety of movie character ornaments, stockings, and an Optimus Prime snowglobe. Newly pictured is a Megatron stocking, though one suspects Santa would just automatically fill that one with coal.

Visit Transformers.com for prices and images. The holiday line is exclusive to Target, and in stores now.
