This rumor is about as rumory as they come, as it's based on some guy talking to some other guy at Target. Regardless, it's interesting, so here's the rumor. A poster on DVDTalk.com says that he was told by an employee that Target would be carrying an exclusive edition of the 2-disc astf DVD, in a special case that transforms into a 15" tall Optimus Prime. If the rumor is true, it sounds an awful lot like a U.S. edition of the Australian DVD set we reported on back in August (and pictured at left).

Visit DVDTalk for the original rumor. As it's only a week and a half until the DVD release, we should have confirmation on this rumor one way or another very soon. Rumor.
