With his release only a few weeks away, actual toy pictures of HenKei! HenKei! Hot Rodimus have finally surfaced on Amazon.co.jp. Hot Rodimus, like his fellow HenKei! HenKei! releases, features a more cartoon accurate color scheme. Most notable of the differences is a the gold chrome rear spoiler!

You can view the images at [Amazon.co.jp](http://Amazon.co.jp) and discuss the news in the thread on our boards.
