

Gunbarrel, Reverb, Backtrack: New Target Movie Scouts!

Contributed by NightViper
Tuesday, 10 June 2008

It looks like the astf Scout class refuses to die! Now on eBay are auctions for three more Scout repaints in Movie style packaging; Gunbarrel (a repaint of Energon Blight/Kickback), Reverb (a repaint of Energon Stormcloud/Blackout) and Backtrack (a repaint of Cybertron Lugnutz). So fans of the little recolors can hope to see more on the shelves sometime in the future!

[Click here](#) to discuss these auctions in Razorsaw's thread!
