

## New Fans Project Items Revealed!

Contributed by Powered Convoy  
Saturday, 21 June 2008

At TFCon this weekend custom Transformer accessory producer Fans Project was in attendance and had some of their upcoming items on display. Among the already known City Commander Ultra Magnus Armor Kit (with a Powered Convoy version on display), were handheld versions of Classics and Henkei Megatron's Pistol Mode, a Classics / Henkei Matrix of Leadership, and an Alternator / Binaltech Matrix and Rifle Combo (a hard copy wasn't on hand for this item).

You can view the images at [TFW2005](#), and discuss this exciting news in our forums.
