Ok, so it may not be used by IDW, but Transformers comic book artist Alex Milne has posted a Blurr head study on his deviantART page. So for fans looking to get another look at IDW's redesign for this 1986 movie character, you may want to check out this drawing! The actual comic book will be drawn by Casey Coller, the artist behind the Apocalypse Comics retailer exclusive All Hail Megatron #1 cover based on the Batman "The Killing Joke" cover.
