Several reports are coming in that Walmarts are lowering the price on their exclusive Movie Deluxe figures from \$9.96 to \$7.77! While we can't guarantee that your Walmart will be lowering the price tag on these figures, or that they even have them, it certainly does seem like it's a wide enough event that it's worth a trip to your local Wally World. So if you haven't grabbed a Fracture, Crankcase and Breakaway yet, now is your chance! And don't forget to check the other Deluxes while you're there, as there have been reports of \$7.77 Universe Deluxes too.
