The Revenge exclusive content section at Walmart's site has two new videos to access. One vid is Day 28 of filming, Shia LaBeouf and Megan Fox once again at the Witwicky residence's back yard in Los Angeles. It seems that some of the make-up crew were worried about Megan overheating due to wearing a leather body suit for the scene. The other video is of Megan auditioning for the role of Mikaela for the first film.

Check it out at Walmart's Enhanced Content, don't forget the code is "AllSpark62609", and don't forget to discuss here!
