TFW's own solitudinal has pictures of in package eHobby Exclusive-64 Guardian Robot, plus the premiums that include a "4-page" mini-comic (really a 2-pager) involving the Guardian Robot and Megatron, as well two decal sheets of both factions symbols. HK-TF.com's lowbcousin also has pictures of the Guardian Robot, outside of his packaging and apparently pawning Soundwave.

Click [here](#) to see solitudinal's pictures and [here](#) for lowbcousin's photos at HK-TF.com.
