

Extending Flames for Animated Swoop's Ball and Chain

Contributed by NightViper
Thursday, 25 September 2008

Feel pretty handy with a Dremel tool? Want to give Animated Swoop some extending flames for his ball and chain? Well, then you may want to check out Dvandom's tutorial on just how to do that! A few cuts, and some grinding, and Swoop can have a flaming spiky ball of death to show those Decepticons just how the Dinobots roll!

[Click here](#) to see the tutorial in or lacon art forums.
