For those of you that collect packaging variants, or are just looking for the best value, be sure to check out your local Toys R Us for the Animated Leader Bulkhead with Bonus Activator Bumblebee. The set has been spotted in a California store, so it's only a matter of time before you can get your hands one one! The Leader Megatron with Activators Sctarscream was no where to be found, so it's unknown if it's shipping with Bulkhead or not.
