Sick of seeing Masterpiece Grimlock's ugly mug? Haven't got enough of Alternity Megatron's odd face? If you haven't tipped the legal blood alcohol level limit (or not) yet, then steady that bottle (or not if you're under drinking age). The February issue of Japanese magazine Hyper Hobby has one page dedicated to the aforementioned Dinobot, the second page on Megatron, Henkeis Cyclonus, Ratchet, and Inferno (the latter two due February), and Disney Label Mickey Mouse.
