Ok, like, OMG! TheRealEffingDeal has been, like, posting all these videos, and they're really weird! There like, this motorcycle, and a toy plane, and they like, change! Into Robots! Like they were in disguise or something! And then, there's like these wierd shadows in Egypt! I'm totally freaking out. Even that GiantEffingRobots guy has some of these videos - but mostly he's just, like, mocking the people who post comments. But those videos! Like, Crazy thing are happening!
