

ROTF Thrust repaint/retool of Breakaway

Contributed by NightViper
Wednesday, 24 June 2009

It looks like fans wanting a repaint of the astf Breakaway mold will get their wish! A new eBay auction has emerged showing off a Breakaway in red and black with Decepticon symbols and going by the name "Thrust". And if that's not enough for you, he's got a new head tooling too!

You can see the figure here, and discuss it here. Thanks to Octavius Prime and 2005 for the news.
