For those not able to attend London's Auto Assembly 2009, don't be in much despair. Simon Plumbe has dropped by with a list of a package for non-attendees that is quite a haul! The Cybertronian Time Issues 10 signed by ALL of their convention guests, and All Hail Megatron #13 convention exclusive variant cover are just two of the items in the package! For those that ARE attending, make sure to bring plenty of materials for autographs by Simon Furman, Nick Roche, Boo, and Liam Shaloo come June 27!

Read up the list at [Simon's thread](#) for details and don't forget to head to [Auto Assembly's site](#) for other updates!
