Do make sure you read it with dignity, or grandpabot Jetfire will come down on you turbo revvin' punks! From writer Chris Mowry and artist Carlos Magno, we get a look at Jetfire's past as a Seeker who served the Dynasty of Primes, long before the events of astf! We also get a glimpse at the Fallen prior to being locked away for a VERY long time.

Read up on the preview at [BZZURKK](#) and drop off your thoughts at the thread here! Just watch for the landing gear-cane. Don't forget that Tales of the Fallen #3 comes out October 21!
