Wal-Mart Exclusive Masterpiece Skywarp teleported to several Argos stores in the United Kingdom within the last week. Now earlier today we are receiving reports he was spotted teleporting to a Canadian Wal-Mart. It's only a matter of time before he warps to other Canadian Wal-Marts, and perhaps finds his way South to Wal-Marts within the United States.

You can view the original Canadian sighting [here](#), and discuss the news in our forums.
