

Update on Club Exclusives, Botcon From Brian Savage

Contributed by NightViper
Tuesday, 20 October 2009

Several updates have been posted in the Members Only forums on the Transformers Collectors' Club site.

On the Club side of things, the sketches for Punch/Counterpunch's head have recently been delivered to the sculptor. The second exclusive is still being nailed down; the Club has been through 3 suggestions. They are still waiting for word back/approval on the last one that they submitted. They will try to get the two Club exclusives and the Club incentive figure produced at the same time, and before they have the Botcon figures made. The incentive figure will be revealed November/December.

As for Botcon, the 2010 Convention set was approved yesterday. So now they can move forward with those figures. Also, they are currently working on the code for online registration for Botcon. However, they do not currently expect that it will be available when the 2010 registration opens.

So there you have it; the latest Club/Botcon news! For members wanting to check out Brian Savage's original post, head on over to the TCC homepage [here!](#)
