

## New Device Label Tigatron Gallery

Contributed by NightViper  
Thursday, 22 October 2009

Big Cat is back and ready to scout the recesses of your computer! Device Label Tigatron is set to hit store shelves in just a couple days, and to tide you over until you can get your hands on him (and Ravage) Higeekuma Toy blog has posted a gallery of the striped kitty! He's ready to take down a Decepticon or two, all the while holding onto your digital files!

[Click here](#) to see the gallery.
