

ROTF Concept Art: Massive Black's Soundwave, Devastator and the Hive

Contributed by Master Fwiffo
Friday, 23 October 2009

Members of Massive Black have posted some new astf Concept Art at ConceptArt.org! Some of these you might have glimpsed on your special features disk of ROTF, but others are new! Check out these images, which include an early Soundwave wrecking downtown, a more humanoid Devastator, and a "The Hive", made up from hundreds of Insecticons! Views the images [here](#) and [here](#)!
