

ROTF Voyager Nebular Starscream

Contributed by NightViper
Monday, 26 October 2009

S250 of the 2005 Boards has posted an image for a new upcoming astf figure. The toy is called "Nebular Starscream", and is a metallic green and seemingly extremely desaturated purple repaint of the ROTF Voyager Starscream mold. No bio or mention of how the figure will be available, however we'll keep you updated when more information is revealed.
