Hasbro has just sent over new images for upcoming astf figures! Included in the images are seemingly 2-packs of Legends figures featuring Bumblebee and Shadow Striker (Decepticon repaint of Universe Wheelie), Smokescreen (repaint of Universe Rodimus) and Starscream, and Rally Mudflap and Offroad Skids! Also tagging along are images of Fast Action Battler repaints Spark Blast Jolt and Rally Mudflap and Offroad Skids (that's not a typo, both sets of Twins were given the same names).
