

ROTF Ice Cream Truck Twins Packaging Variant

Contributed by NightViper
Friday, 30 October 2009

2005 Boards member ghoyle has found something interesting for all those variant collectors out there. He's discovered a packaging variant for the astf Ice Cream Truck Twins. Instead of being packaged in vehicle mode, Autobot Skids and Mudflap are in robot mode. It's not yet known if this will be an Asia-Pacific market variant only, or if they will start appearing elsewhere.

[Click here](#) to see the robot mode goodness!
