New photographs and video of some of the most anticipated ROTF figures are now hitting the internet. To start, Pascal of Cybertron.ca has posted a gallery of Scout Class Scattershot along with a review of the figure. Additionally, a video of Leader Class Starscream has been posted on YouKu.com, showcasing the sounds and lights that the figure will have, as well as the supposed jaw movement. Lastly, quite a few more Bludgeon images have been posted on wretch.cc, for those skeletal samurai fans!
